Frontend Developer | React.js | JavaScript | UI Engineer

Professional Summary

Results-driven Frontend Developer with 3+ years of experience building scalable and performant web applications. Strong expertise in React.js, JavaScript, Material-UI, and Tailwind CSS, with a passion for developing clean UI, responsive designs, and maintainable architecture. Skilled in state management, API integration, and collaborating cross-functionally with backend and design teams. Proven track record of delivering high-quality code under tight deadlines.

Technical Skills

Frontend: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material-UI, Redux, Context API

Tools: Git, Postman, VS Code, Nginx, intellIj

Concepts: Responsive Design, State Management, API Integration, Web Workers, Performance Optimization, i18n

Certifications

- Infosys Certified React Developer
- Infosys Frontend Developer
- AWS Certified Cloud Practitioner
- Azure Fundamentals 900

Achievements

Recipient of the Insta Award for exceptional project delivery at Infosys

Recognized on Infosys' "Gracias" appreciation platform for client satisfaction and teamwork

Professional Experience

Infosys Ltd.

Senior Systems Engineer | May 2022 – Present

Project: Application Migration – Citrix Tools to Web Applications (Ongoing)

Currently working on modernizing legacy Citrix-based internal tools by converting them into web applications to improve performance, accessibility, and user experience.

Tools Being Migrated:

1. **Analytical Source Tool** – used for data sourcing and analysis
2. **Tabling Tool** – includes modules for Table Configuration and automated Table Generation
3. **Data Validation Tool** – ensures accuracy and integrity of processed data

Tech Stack: React.js, JavaScript, Material-UI, HTML5, CSS3, APIs, etc.

Project: BTTS – Employee-Friendly Web Application

- Built a responsive, modular UI using React.js and Material-UI
- Designed dynamic components like tab views, modals, and collapsible menus
- Integrated secure REST APIs and implemented Redux for global state management
- Focused on accessibility and responsiveness across devices

Project: File Comparison Tool (CSV Comparator)

- Built a high-performance CSV comparator to handle millions of rows
- Used Web Workers for background processing to ensure non-blocking UI
- Implemented a clean diff view with sorting, filtering, and downloadable reports
- Technologies: React.js, Vanilla JS, HTML5, CSV parsing, custom hooks

Education

Bachelor of Engineering (Computer Science & Engineering)

Prof. Ram Meghe Institute of Technology & Research, Badnera

Sant Gadge Baba Amravati University | 2015 – 2019
