SURAJ MORE

Frontend Developer (React.js) — 4+ Years Experience

surajmore.tect@gmail.com | +91 9309751507 | LinkedIn | Portfolio

SUMMARY

Frontend Developer with over 4+ years of experience building scalable, responsive web applications using React.js, JavaScript (ES6+), Redux, Material-UI, and Tailwind CSS. Skilled in REST API integration, unit testing (Jest), code quality (SonarQube), performance optimization, and debugging. Experienced modernizing legacy enterprise systems, designing wireframes and UI flows, and building high-performance, data-intensive tools using Web Workers. Works in Agile teams using Jira, Confluence, and Git. Infosys Insta Award recipient for exceptional project delivery.

CORE SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Material-UI, Redux, Responsive Design, Wireframing
- **Quality & Testing:** Jest (Unit Testing), SonarQube (Code Quality/Static Analysis), Debugging, Postman (API Testing)
- **Tools & Process:** Git, Jira, Confluence, Nginx, Azure App Services, Azure DevOps CI/CD

EXPERIENCE

Frontend Developer — Infosys

May 2022 – Present

- Modernized legacy Citrix-based internal enterprise tools into responsive web applications using React.js and Material-UI, improving performance, accessibility, and user experience.
- Delivered and maintained 6 internal tools covering data sourcing/analysis, automated table generation, and data integrity validation (see WebApp Migration project below).
- Built reusable, modular UI components (tab views, modals, collapsible menus) and integrated secure REST APIs with Redux for global state management.
- Configured and deployed frontend apps on Nginx (reverse proxy, SSL, caching) and backend Java apps on Apache Tomcat within Azure App Services, using Azure DevOps CI/CD pipelines.
- Collaborate in Agile teams using Jira for sprint/task tracking and Confluence for documentation; version control with Git.

PROJECTS

Annual Landfill Review (ALFR) — Current Project

- Designing wireframes and UI flows, translating requirements into responsive React.js interfaces.
- Writing unit tests with Jest and maintaining code quality/coverage using SonarQube.
- Tracking work in Jira, documenting in Confluence, and managing version control with Git.

WebApp Migration — Citrix Tools to Web Applications

- Modernized legacy Citrix-based internal tools into modern, responsive web applications using React.js and Material-UI.
- **Migrated tools:** Analytical Source Tool (data sourcing/analysis), Tabling Tool (table configuration & automated generation), Data Validation Tool (data accuracy/integrity), PDT (Product Definition Tool), FIFO (Force In Force Out), and Migration Viewer.

Bench Tracking Tool System (BTTS)

- Built a responsive, modular UI (React.js, Material-UI) with REST API integration and Redux state management; recognized with the Infosys Insta Award.

File Comparison Tool (CSV Comparator)

- Built a high-performance CSV comparator handling millions of rows using Web Workers, with a diff view, sorting, filtering, and downloadable reports.

CERTIFICATIONS & AWARDS

- **Certifications:** AWS Certified Cloud Practitioner; Microsoft Certified Azure Fundamentals (AZ-900)
- **Awards:** Infosys Insta Award (exceptional project delivery, BTTS); Infosys Gracias Platform Recognition (client satisfaction & teamwork)

EDUCATION

- **B.E., Computer Science & Engineering** — Prof. Ram Meghe Institute of Technology & Research, Badnera (2015 – 2019)
