EXPERIENCE

Senior Systems Engineer ***May 2022 — Current***

Infosys Pvt. Ltd - Nagpur

Project: Application Migration – Citrix Tools to Web Applications (Ongoing)

Currently working on modernizing legacy Citrix-based internal tools by converting them into web applications to improve performance, accessibility, and user experience.

Tools Being Migrated:

1. Analytical Source Tool – used for data sourcing and analysis

2. Tabling Tool – includes modules for Table Configuration and automated Table Generation

3. Data Validation Tool – ensures accuracy and integrity of processed data

Tech Stack: React.js, JavaScript, Material-UI, HTML5, CSS3, APIs, etc.

Project: BTTS – Bench Tracking Tool System

• Built a responsive, modular UI using React.js and Material-UI

• Designed dynamic components like tab views, modals, and collapsible menus

• Integrated secure REST APIs and implemented Redux for global state management

• Focused on accessibility and responsiveness across devices

Project: File Comparison Tool (CSV Comparator)

• Built a high-performance CSV comparator to handle millions of rows

• Used Web Workers for background processing to ensure non-blocking UI

• Implemented a clean diff view with sorting, filtering, and downloadable reports

• Technologies: React.js, Vanilla JS, HTML5, CSV parsing, custom hooks

EDUCATION

Prof. Ram Meghe Institute of Technology & Research ***2015 — 2019***

Amravati | B.E. (Computer Science & Engineering)

• Graduated with a Bachelor of Engineering in CSE with honors

• From Sant Gadge Baba Amravati University
