Frontend Developer | React.js | JavaScript | UI Engineer

Professional Summary

Results-driven Frontend Developer with 3+ years of experience building scalable and performant web applications. Strong expertise in React.js, JavaScript, Material-UI, and Tailwind CSS, with a passion for developing clean UI, responsive designs, and maintainable architecture. Skilled in state management, API integration, and collaborating cross-functionally with backend and design teams. Proven track record of delivering high-quality code under tight deadlines.

Technical Skills

Frontend: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material-UI, Redux, Context API

Tools: Git, GitHub, Postman, VS Code, Nginx, SonarQube

Concepts: Responsive Design, State Management, API Integration, Web Workers, Performance Optimization, i18n

Others: Agile Methodology, CI/CD Awareness, RESTful APIs

Certifications

- Infosys Certified React Developer
- Infosys Frontend Developer
- AWS Certified Cloud Practitioner
- Azure Fundamentals 900

Achievements

Recipient of the Insta Award for exceptional project delivery at Infosys

Recognized on Infosys' "Gracias" appreciation platform for client satisfaction and teamwork

Professional Experience

Infosys Ltd.

Senior Systems Engineer | May 2022 – Present

Project: BTTS – Employee-Friendly Web Application

• Built a responsive, modular UI using React.js and Material-UI
• Designed dynamic components like tab views, modals, and collapsible menus
• Integrated secure REST APIs and implemented Redux for global state management
• Focused on accessibility and responsiveness across devices

Project: File Comparison Tool (CSV Comparator)

• Built a high-performance CSV comparator to handle millions of rows
• Used Web Workers for background processing to ensure non-blocking UI
• Implemented a clean diff view with sorting, filtering, and downloadable reports
• Technologies: React.js, Vanilla JS, HTML5, CSV parsing, custom hooks

Project: Smart Expense Tracker

• Created a user-friendly React app for real-time expense tracking and budget management
• Integrated with Firebase for real-time database and authentication
• Used Chart.js to visually represent weekly/monthly spending analytics
• Features included adding/editing/deleting expenses, login/signup, and persistent sessions
• Styled with Tailwind CSS for mobile-friendly UI

Project: Developer Dashboard with Analytics

• Built a modern admin dashboard using React.js, Tailwind CSS, and Chart.js
• Developed reusable UI widgets like bar charts, pie charts, activity logs, and tables
• Integrated mock APIs to simulate real-time project KPIs
• Implemented dark mode and responsive grid layouts
• Perfect for showcasing frontend design and data visualization skills

Education

Bachelor of Engineering (Computer Science & Engineering)

Prof. Ram Meghe Institute of Technology & Research, Badnera

Sant Gadge Baba Amravati University | 2015 – 2019
